EWE User Study — Task Set 1

Contents

Task Set 1 **1**

Task 1 — 22-karat gold . . . 1
Task 2 — 'forsooth' presents two definitions . . . 2
Task 3 — Urubupunga . . . 3
Task 4 — 'hayfield' . . . 4
Task 5 — 'ignore' . . . 5
Task 6 — Quotation with apostrophe . . . 6
Task 7 — 'stinks', 'sucks' . . . 7
Task 8 — Spurious relation . . . 8
Task 9 — 'eitchen midden' . . . 9
Task 10 — 'positive', 'comparative', 'superlative' . . . 10

Task Set 1

Moderator/reference copy – includes issue number, URL, and the gold-fix PR link. See `task_sets.csv` for the same metadata in tabular form.

Task 1 — 22-karat gold

Issue: #1182
Category: definition
Size: tiny
Gold fix (moderator only): https://github.com/globalwordnet/english-wordnet/pull/1187

Synset oewn-14663546-n (Interlingual Index: i113940) (n) 22-karat gold an alloy that contains 87 per cent gold

New definition an alloy that contains 91.67 per cent gold

Motivation Hey, the 22 Karat Gold definition on OEWN is wrong. It says that it is 87 percent purity but it's really 91.67 percent purity.

Please fix this for 2025.

Task 2 — ‘forsooth’ presents two definitions

Issue: #1276
Category: definition
Size: small
Gold fix (moderator only): https://github.com/globalwordnet/english-wordnet/pull/1292

Synset ewn-00038658-r forsooth

New definition Please state the new definition you are proposing - used to express disbelief

Motivation The original definition: - an archaic word originally meaning ‘in truth’ but now usually used to express disbelief presents 2 senses (in truth, disbelief), it should be split in the synset of indeed 00037864-r

Task 3 — Urubupunga

Issue: #1136
Category: definition
Size: medium
Gold fix (moderator only): https://github.com/globalwordnet/english-wordnet/pull/1161

Synset oewn-09490895-n (Interlingual Index: i86375) (n) Urubupunga, Urubupunga Falls a waterfall in the Parana river in Brazil

oewn-09453320-n (Interlingual Index: i86159) (n) Guaira, Guaira Falls, Sete Quedas a great waterfall on the border between Brazil and Paraguay

New definition a former waterfall on the Parana river in Brazil; now impounded by the Engineer Souza Dias Dam and the Ilha Solteira Dam

a former waterfall on the border between Brazil and Paraguay; now impounded by the Itaipu Dam

Motivation This took me a long time to discover what 'Urubupunga' refers to. Googling only seems to show a bus-stop in Sao Paulo.

I eventually found this source: https://www.google.ie/books/edition/Survey_of_the_Brazilian_Economy/0gQpMyluTaMC?hl
PA170&printsec=frontcover

Which says:

> CELUSA (Centrais Eletricas de Urubupungá) created in 1961 to harness the Urubupungá falls through the construction of two large plants: Jupiá [... and...] Ilha Solteira

Jupiá was since renamed to Engineer Souza Dias

The second case is described in Wikipedia

We should also add accents to the relevant terms.

Task 4 — ‘hayfield’

Issue: #1387
Category: duplicate_or_merge
Size: medium
Gold fix (moderator only): https://github.com/globalwordnet/english-wordnet/pull/1395

Lemmas ‘hayfield’, ‘hay field’

Definition A field where grass grows for hay.

Relation hypernym -> `08596880-n`

Significance Currently, ‘hayfield’ is covered in the (only) synset for ‘meadow’.

```
08588163-n: hayfield, meadow
    a piece of land covered or mostly covered with grass; a field where grass or alfalfa are grown to b
    hypernym: 08615857-n (grassland)
```

This definition and synset merge two obviously quite distinct concepts. I think it is better to keep ‘meadow’ in the existing synset and shorten its definition to ‘a piece of land covered with grass and wild plants’. A new synset will be created for ‘hay field’

Task 5 — ‘ignore’

Issue: #1060
Category: deprecation
Size: medium
Gold fix (moderator only): https://github.com/globalwordnet/english-wordnet/pull/1087

Synset oewn-00596900-v (Interlingual Index: i24739) (v) ignore > be ignorant of or in the dark about

Motivation This sense does not fit with my understanding of English. “I am ignorant of something” does not mean “I ignore something”.

It has no occurrences in any of the UFSAC corpora, suggesting this sense is not used.

I suggest deprecating to the adjective ‘ignorant’

Task 6 — Quotation with apostrophe

Issue: #1340
Category: other
Size: tiny
Gold fix (moderator only): https://github.com/globalwordnet/english-wordnet/pull/1357

src/yaml/adv.all.yaml:

```
- \'The Pentagon\' is often used metonymically to refer to the Department of Defense
```

does not align with quotation coding currently used in OEWN

Quoting with apostrophes has been superseded with proper quotes for some time. I know, this is hardly visible and hard to type but it has the advantage of -not colliding/multiplexing with anything -respecting the semantics of the apostrophe character, -making it easy to search for and process quotations (because it uses distinct dedicated –opening, closing– characters)

```
‘ 2018 single quotation, left
’ 2019 single quotation, right
‘quoted’
```

How to type them in Linux if noot copying from a charmap Ctrl + Shift + U, then 2018, then Enter → ‘ Ctrl + Shift + U, then 2019, then Enter → ’

This should probably be checked (and transformed if neeed) by EWE when introducing new stuff and/or be added to format requirements.

Task 7 — ‘stinks’, ‘sucks’

Issue: #1041
Category: other
Size: medium
Gold fix (moderator only): https://github.com/globalwordnet/english-wordnet/pull/1066

Synsets oewn-02680129-v (Interlingual Index: i35032) (v) suck, blow be inadequate or objectionable “this sucks!” “this blows!”

oewn-02679962-v (Interlingual Index: i35031) (v) stink be extremely bad in quality or in one’s performance “This term paper stinks!”

Motivation I think these two senses are fully substitutable (if somethings “suck” then it “stinks” and vica versa)

Task 8 — Spurious relation

Issue: #1228
Category: relation
Size: tiny
Gold fix (moderator only): https://github.com/globalwordnet/english-wordnet/pull/1229

Existing relation oewn-10807146-n -> oewn-09654651-n

Proposed change Remove it

Motivation This slipped in as a bug from trying to remove some anti-feminist slurs

Task 9 — ‘eitchen midden’

Issue: #1388
Category: relation
Size: small
Gold fix (moderator only): https://github.com/globalwordnet/english-wordnet/pull/1396

Synset

```
08578097-n: eitchen midden, midden, kitchen midden
    (archeology) a mound of domestic refuse containing shells and animal bones marking the site of a pr
    hypernym: 08577564-n (dump, garbage dump, trash dump, rubbish dump, wasteyard, waste-yard, dumpsite
    domain_topic: 06153532-n (archeology, archaeology)
```

Lemma ‘eitchen midden’

Motivation Obviously a typo, the correct lemma has been added as well.

Task 10 — ‘positive’, ‘comparative’, ‘superlative’

Issue: #1380
Category: relation
Size: medium
Gold fix (moderator only): https://github.com/globalwordnet/english-wordnet/pull/1393

Lemmas ‘positive’ ‘comparative’ ‘superlative’

Definition of an adjective in the primary form, not the comparative or superlative form of an adjective in the form showing comparison of an adjective in the form showing greatest degree

Relation pertainym => 06333461-n pertainym => 06333686-n pertainym => 06334277-n

Significance We have nominal senses for ‘positive’, ‘comparative’, ‘superlative’ but not the adjectival sense
